ORDER FOR NOTICE AND COMMENT

On March 1, 2019, pursuant to Ordering Paragraphs (3) and (4) of the Final Order issued by the State Corporation Commission ("Commission") in Case No. PUR-2018-00038 on May 23, 2018,¹ and in accordance with Rule 80 of the Commission's Rules of Practice and Procedure,² 5 VAC 5-20-80, Virginia Natural Gas ("VNG" or "Company") filed its application ("Application") for approval of its second annual adjustment to Rate Schedule PT-1 and requested that the adjusted PT-1 rate be approved effective June 1, 2019.

VNG states that Section III.A of the Company's Rate Schedule PT-1 permits the Company to adjust the PT-1 rate annually to reflect any changes in the cost of service components going forward and to refund or recover any difference between actual and recovered operations and maintenance ("O&M") expenses.³ According to the Company, for each year the PT-1 rate is in effect, the Company will update the plant in service, accumulated depreciation, and projected O&M expenses, as well as property tax expense and federal and state tax rates.⁴

The Company will also update changes to its depreciation rates and rate of return to reflect the results in each base rate case while the PT-1 rate is in effect.⁵ At the end of each 12-month period the PT-1 rate is in effect, VNG will reconcile the difference between the actual O&M expenses and the amounts recovered through the PT-1 rate.⁶ The Company will also include an adjustment to the subsequent year's PT-1 rate to recover or refund the difference in these O&M costs.⁷

In its Application, the Company proposes a revised PT-1 rate of \$0.91597 per dekatherm ("Dth").⁸ According to the Company, the primary drivers for the decrease in the PT-1 rate from \$1.00450 per Dth to \$0.91597 per Dth are (i) the projected level of total monthly fixed O&M costs, and (ii) the true-up of the over-recovered fixed O&M costs for the period January 1, 2018, through December 31, 2018.⁹ In its 2018 PT-1 revision filing, the Company had included an estimated level of total monthly fixed O&M costs of \$95,964, as compared to an actual level of \$73,134, which resulted in an over-recovery of \$22,830 per month.¹⁰ The Company also included forecasted total monthly fixed O&M costs of \$87,107, for January 1, 2019, through December 31, 2019.¹¹ The Company arrived at this number by estimating a projected 2019 fixed O&M of \$109,938 minus the over-collected 2018 O&M of \$22,830.¹²
